

Hook tasks:

1.

Time Conversion

Keywords:

months seconds weeks years
days minutes hours

Here are some mixed time conversions which have been made. The units of measure are missing.

Conversion	Before	After
One	21	3
Two	3	180
Three	24	2
Four	300	5
Five	3	36

Task

Think about what units of measure could be applied to each conversion to make them correct. Fully explain the reasons behind your decisions.

Proving:

Jane says that there is more than one possibility for conversions two and four. Do you agree? Share your thoughts.

Converting Time

On Time

Marlon, Jerry, Millie and Jane want to go and see a film. Who will be on time and who will be late? Explain why!

The Wizard King

Starts: 14.30pm

Marlon catches a bus at 1.45pm. It takes 38 minutes to reach the cinema.

Jerry leaves his house at quarter past two in the afternoon. His walk to the cinema takes thirteen minutes.

Millie goes for lunch at 13:30. Her meal takes 52 minutes. Then she walks 4 minutes to the cinema.

Jane should have caught her bus at 1:59pm but the bus was 8 minutes late. It takes 26 minutes to get to the cinema.

Grammar

Ranjit saw the following sentence in one of his friend's diaries:

After football training, I usually scrub my boots.

This is a great example of a complex sentence with a main and a subordinate clause.

Do you agree with Ranjit? Explain why!
