

Hook tasks:

1. Convince me... [addition & subtraction]

$$43,892 + 28,747 = 72,639$$

*Convince me!*

$$LXXVIII + XLIX = XXIX$$

*Convince me!*

*The sum of three odd numbers is odd.*

*Convince me!*

$$37,832 + 29,102 = 66,934$$

*I can check this calculation using subtraction.*

*Convince me!*

Prove these statements to be true in as many ways as possible...

**Remember;** you can use traditional calculations as well as models and diagrams.

2. Always, sometimes, never... [multiplication]

*Always, Sometimes or Never?*

*Jerry says, "When you multiply two numbers you will always get a bigger number."*

*Always, Sometimes or Never?*

*Odd  $\times$  even = even*

*Always, Sometimes or Never?*

*Millie states, "Any number multiplied by 1 is bigger than 1."*

*Always, Sometimes or Never?*

*Even  $\times$  even = even*

Can you say whether the statement is: always true; sometimes true; or never true? Also, don't forget to try to explain your reasoning.

Main Tasks: [place value, multiplication and division]

Complete these calculations **using the most appropriate method**:

Question	Calculation	Explain why you chose this method...
1. $672 \times 4 =$		----- ----- ----- ----- -----
2. $550 \times 5 =$		----- ----- ----- ----- -----
3. $1,234 \times 12 =$		----- ----- ----- ----- -----
4. $1,795 \times 10 =$		----- ----- ----- ----- -----
5. $1,587 \div 7 =$		----- ----- ----- ----- -----
6. $1,073 \div 12 =$		----- ----- ----- ----- -----

**Remember;** you are trying to pick the **most appropriate/efficient** method to solve each calculation.

Try to think about lots of different ways you could solve the calculation using both formal and mental calculation strategies. Explain why you think the method you've chosen is the best / quickest / easiest.

Grammar

YR4 Plural Possessive Apostrophes

Anita wrote some sentences using an apostrophe to show plural possession.

The girl's coats got soaked after they got caught in the storm.  
The people's mood was great.  
The country's leaders all discussed the problem.

Alfie, Millie and Marlon discussed Millie's sentences. Who is correct? Explain your answer.

When you use an apostrophe for possession it always goes before the s.

I'm sure it is different if the word already ends in an s,

If the noun is plural the apostrophe should go after the s.

Handwriting practice area with multiple sets of dashed lines for writing.

Spelling

Here is a game to play that is all about the year 3 & 4 spelling list. Enjoy! 😊

**SPELL TRACK**

*What route will you choose?*

- SAFE ROUTE** (Green footprint icon)
- CAUTIOUS ROUTE** (Yellow footprint icon)
- RISKY ROUTE** (Orange footprint icon)

The board is a circular track with three concentric rings of colored segments. The innermost ring is orange (Risky Route), the middle ring is yellow (Cautious Route), and the outermost ring is green (Safe Route). A central circle contains a clockwise arrow. The word 'START' is written in the bottom-most green segment, and 'END' is written in the top-most yellow segment.

# SPELL TRACK

## Instructions

This is a game for 1-4 players. You need some counters and a standard die. Everyone starts on the 'START' space.

If the word is spelt right, the player is able to move the number of spaces shown on the die. If not, they move 1 space towards the centre.

The first player rolls the die and then the player who is next in line of turn picks a spelling card from the pile.

Players can choose to take a 'safe' or a 'risky' route when moving their counter. If they are within the orange zone and get a spelling wrong they go back to the start.

The person with the card reads out the spelling word and challenges the other player to spell the word aloud to the group.

Keep playing until there is a winner (when someone successfully reaches the 'END' space).
